Reference Letter for Mr. David Hertog
Hertog & Associates, Inc.

To Whom It May Concern:

I have engaged David Hertog over the past twelve years in a variety of security-related assignments. His consulting work for my companies has included investigations, executive and employee protection, building security and workplace violence issues.

Most recently, David performed consulting services for Grainger in our Miami Export office. This involved investigative and employee protection services related to a potentially serious workplace violence issue.

I have always found David to be highly professional, responsive and ethical. I would strongly recommend him and his firm to any person or business in need of such services.

If you would like to speak with me about David and his capabilities, please call me directly,

Sincerely,
